

My K-Love radio station at 88.3 is very important to me and my family. Please do not change the way my station is broadcast. The local community relies on K-Love to provide family friendly Christian music and news. It is very much in the public's interest to allow K-Love to broadcast on the current FM translators, not LPFM. K-Love continues to provide commercial free inspirational music to listeners all across the US, including Norfolk, NE. Please don't change that.
